Experience

Full Stack Developer Co-op | 01/2023 - 09/2023 | Rosa Flora | Dunnville, ON

- Technologies used: **Vue**, **HTML**, **SCSS**, **TypeScript**, **JavaScript**, **ASP.NET**, **C#**, **Jira**, **Bitbucket**, **T-SQL**, **JSON**
- Streamlined approval processes by designing and developing employee vacation request pages with email notifications.
- Increased logistics department efficiency by 45% through the creation of an order receiving page with truck loading data submission capabilities.
- Proactively maintained, enhanced, and optimized existing applications, ensuring ongoing performance.
- Developed T-SQL procedures and views for seamless integration of various web page functionalities.
- Regularly backed up application updates to the server and created department-specific reports.

Projects

[Money Compass – Full-stack Personal Finance Web App](#)

Python, React, Node.js, TypeScript, Docker, Vercel

- Built a full-stack personal finance app that imports and analyzes bank CSV statements, with a Python backend and React/TypeScript frontend for interactive expense tracking
- Implemented CSV parsing, duplicate detection, and quick transaction entry APIs, improving data quality and reducing manual correction for users.
- Containerized frontend and backend using Docker Compose and deployed to Vercel, iterating through 16+ production deployments to refine UI and reliability.

[Arrive Alert \(GPSAlarmApp\) – React Native mobile app](#)

React Native, JavaScript, TypeScript, Kotlin

- Built a cross-platform GPS-based arrival alert app using React Native and JavaScript, integrating Google Maps to let users set pins and receive notifications when approaching their destination.
- Implemented geolocation handling and map rendering, and configured platform-specific settings in Android (Kotlin/Gradle) to ensure reliable performance on real devices.
- Designed app state and storage modules (Components, Context, State, Storage folders) to manage user pins, alarms, and deletion logic, including support for multiple pin options.

Skills

React, Vue, UX/UI Design, ASP.NET, TypeScript, C#, T-SQL, bitbucket, Jira, Bootstrap, JavaScript, JQuery, React, HTML5, CSS, JSON, Git

Education

Software Development | Mohawk College | 12/2023 | Hamilton, ON

- Consistent **Dean's Honour List** recognition with an overall GPA of **3.5/4**.
- Courses Successfully completed in Python, Data Structures, object-oriented design, Database Management Systems, Agile Software Development, .NET, C#, HTML and CSS, JavaScript, SQL, and more.
